

MAC LESSON 9

QUICKLY CHANGE DESKTOP BACKGROUND

Mac Operating System 10 offers several choices of Desktop backgrounds and you can change them whenever you want to by going to the Apple pull-down menu.

I found a really fast way to make his kind of change without having to open the Apple menu.

Just Control-Click anywhere on your Desktop, and a pop-up menu appears. Choose Change Desktop Background and the Desktop preferences pane appears, ready for you to choose a new background.
